

ROMAN BLINDS

TAKING MEASUREMENTS

Please remember to indicate, which side the control device (chain) should be placed on – the left or the right.

100% QUALITY

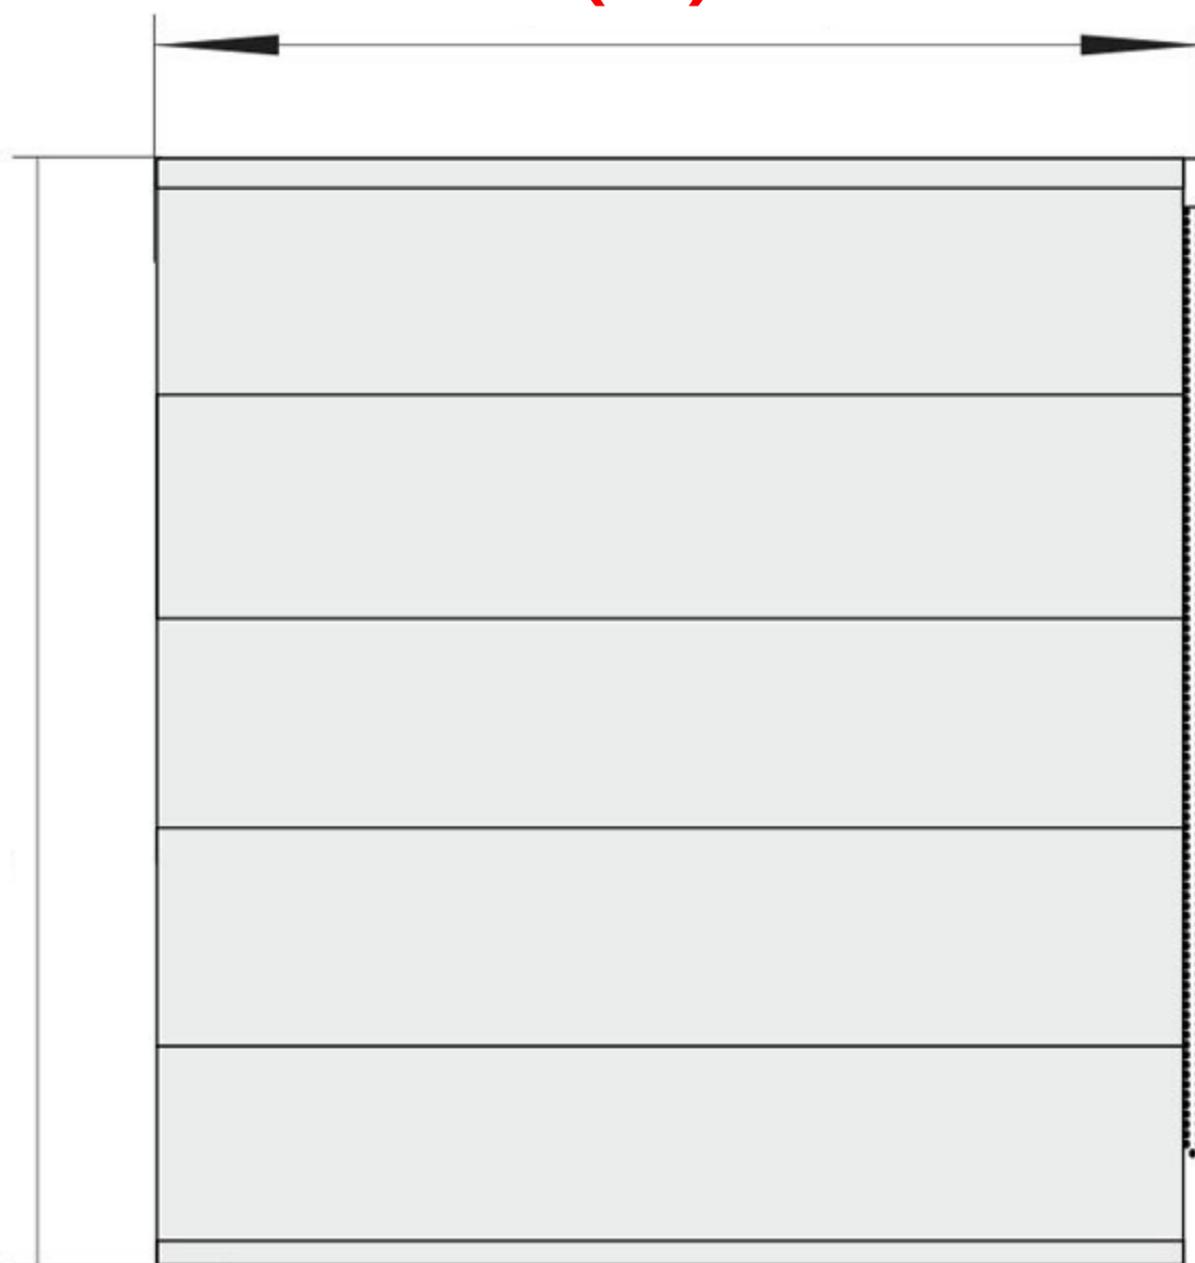

Roman blinds extend 20–30 cm down from the top – make sure that it will be possible to open the window!

Measuring Roman blinds

(A)

(B)

Choose the type of fixture (underline the desired option):
on the wall
on the ceiling
in the aperture

No.	Measurement A	Measurement B	Control device (left, right)
